

SARIELLA

NeaVal MINI

finished size: 18" X 20" | *skill level:* BEGINNER

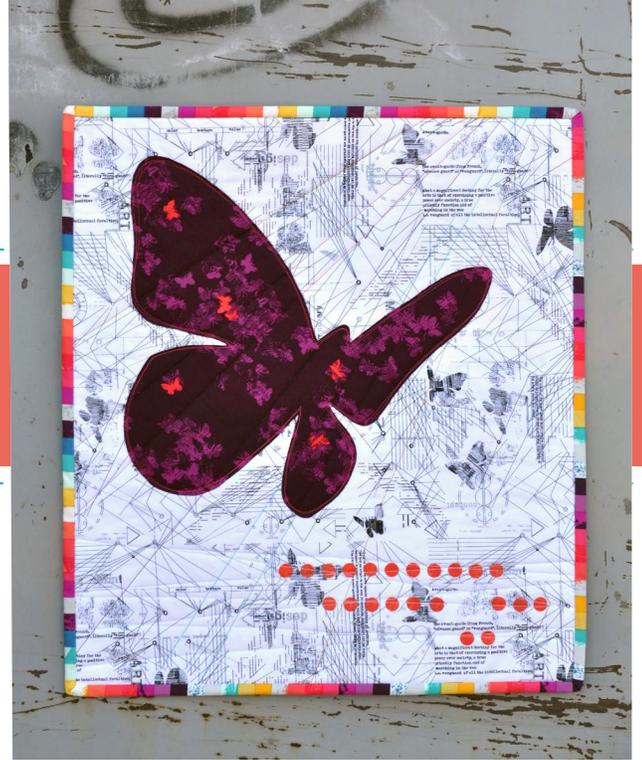

A large appliqué butterfly creates a beautiful mini quilt that is quick to sew and allows you to showcase a fun print. It also makes a darling pillow and can be resized to create a variety of different designs. Share your photos with #NeoVolPattern and #NeoQuiltSeries.

Print the large butterfly template pieces on pages 4-6 at 100% and check the 1" scale block to ensure your size is correct. The template will need to be glued or taped together, matching up the symbols in the solid black circles. Once pieced, cut out your template on the solid line. You will also need to cut the circle template on page 2.

Trace the butterfly and 22 circles onto your selected fabrics. If using a fusible adhesive, iron it to the wrong side of your fabrics before tracing the shapes. Cut your shapes and fuse them to your background fabric (you may choose to cut your background fabric, batting and backing larger than specified and trim to size after piecing and quilting). You will find placement guide diagrams and tips for positioning the butterfly and circles on pages 2 & 3.

Stitch your butterfly in place using the method of your choice. You may choose to also stitch the circles in place, or alternatively you can run several lines through them when quilting.

Quilt and bind your piece as desired.

materials

- 18" x 20" background fabric
- 15" square for butterfly
- 12" x 5" fabric for circles
- 18" x 20" backing fabric
- 20 x 22" batting
- 1/4 yard for binding (Cut 3x strips 2.25" x WOF)
- Iron-on or Spray Adhesive (such as Heat n Bond)
- Templates (pages 4 - 7)

a few notes

If you are new to appliqué, there are many excellent tutorials online and you will find a variety of ways to baste and stitch your pieces.

You can use an iron on or spray adhesive to adhere your pieces to the background.

The mini quilt above uses a free motion straight stitch around the butterfly, leaving a raw edge, and the pillow (shown on page 2) uses a zig zag stitch that encases the edge. You can also do a blanket stitch on your machine or by hand.

NeaVal MINI

Placement guide

Though the placement of the butterfly and circles does not need to be exact and can be adjusted to personal preference, the guide to the right shows measurements to assist with positioning. You will also find a to-scale dot placement guide on page 3.

Variations and scaling

Printed at 100%, the large butterfly template measures approximately 13" square. The pillow below shows this template with an 18" pillow form. Here you can also see the template direction reversed.

You can scale the pattern when printing to create different sized butterflies and two additional smaller templates are also included on pages X & X.

Following are two percentages and finished butterfly sizes for reference (measurements are approximate within 1/4"):

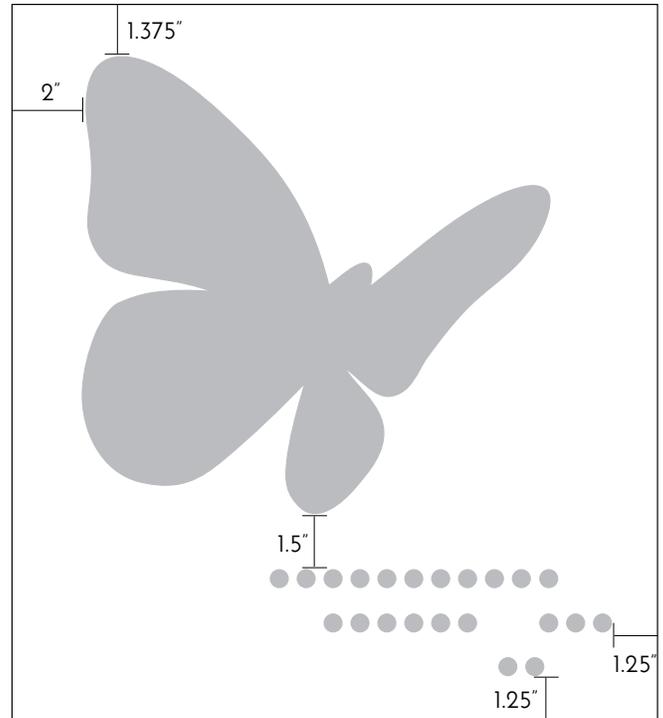

Printed at 85%: 11" butterfly • Printed at 70%: 9" butterfly

We hope you enjoy this pattern!

Be sure to share your photos with [#NeoVolPattern](#) and [#NeoQuiltSeries](#) so everyone can be inspired!

Circle Template • Cut 22
{should measure 1/2"}

Dot Placement Guide

{shown at 100%}

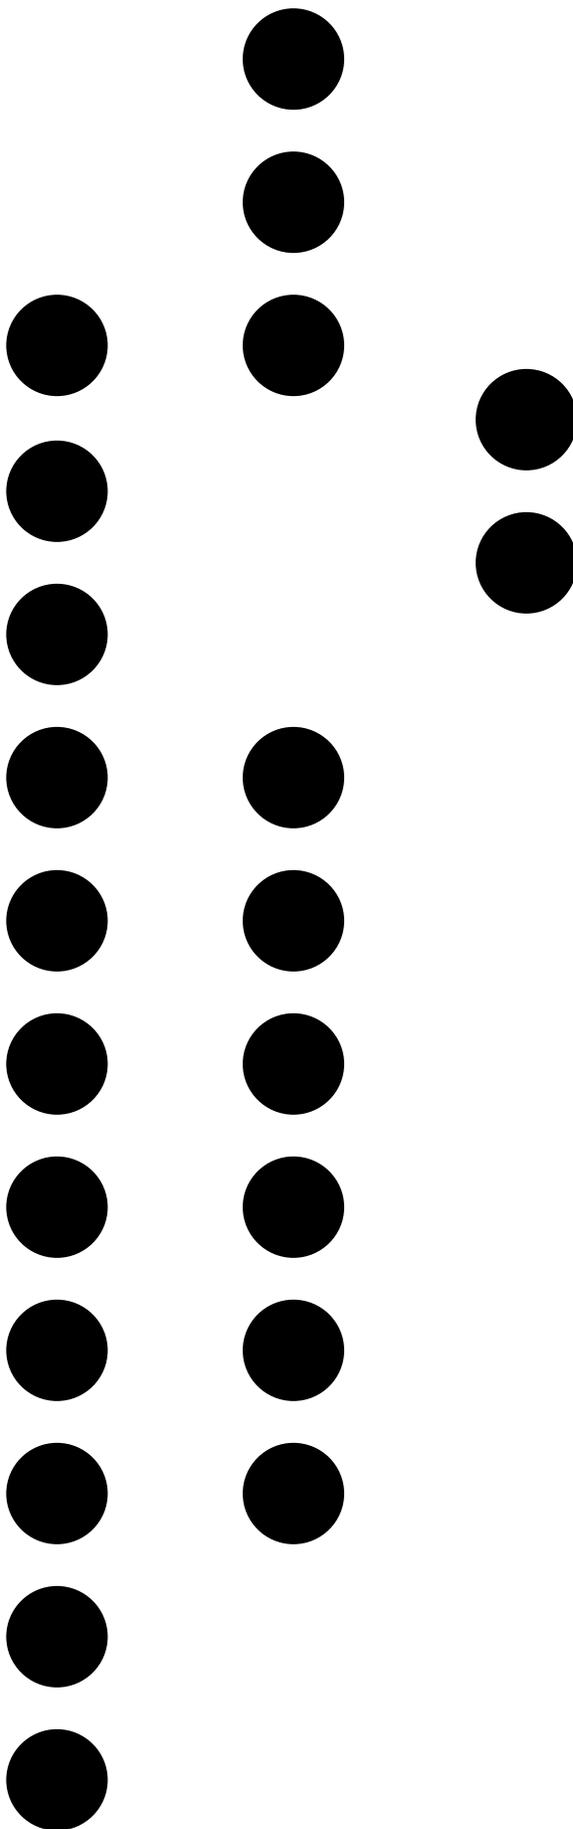

You can use this guide as a visual reference for placing your dots, or if your background fabric is light in color, you can lay this guide underneath and see the dots through. You can also do this on a light box or against a window.

TERMS OF USE

This pattern is for personal use and may not be copied or distributed. You may sell handmade items made from this pattern under these conditions:

- Credit for the pattern must be given as 'sariella'
- No mass production of any sort is allowed.
- Item must be sewn by you on a small scale only
